

Go to settings

Click on Mail, Contacts, Calendars

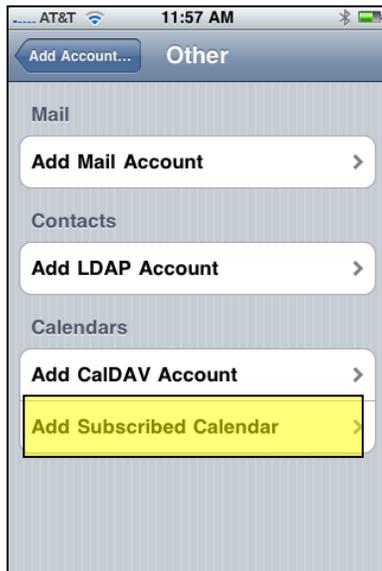

Go to "Add Account"

Click "Other"

Click “Add Subscribed Calendar”

Type <https://misportal.jlab.org/calendar/download.jsp>

Type in JLab username and Password and click “Next” and then “Save”

When you go back to your calendars, it will be in the list.

If you have done all of this, but your calendar entries aren't showing up, please submit a CCPR; your login information in the calendar system may need a manual update.
